CAN bus Distances and CAN fiber extension gateways from EKS Engel

Justin Schneider - 2026-07-27 - [easYgen-3000XT](#)

Maximum CAN bus length The maximum length of the communication bus wiring is dependent on the configured baud rate. Observe the maximum bus length. (Source: CANopen; Holger Zeltwanger (Hrsg.); 2001 VDE VERLAG GMBH, Berlin und Offenbach; ISBN 3-8007-2448-0).

Recommendation is to think about CAN Fiber Optics conversion to increase CANbus distance

Former & OLD part numbers

Woodward's latest part number, 8445-1050 DL-CAN-FD-R-FV / 2X13 MM-SC, is not backward compatible on the fiber side because the protocol has changed. As a result, it does not connect with previous V2 and V3 versions.

Woodward P/N 8445-1048 DL-CANR **V2** REDUNDANT CAN FIBER OPTIC SYSTEM EKS Engel P/N 010007573 - **obsolete, do not mix V2 with new V3 converters !**

Woodward P/N 8445-1048 DL-CANR **V3** REDUNDANT CAN FIBER OPTIC SYSTEM EKS Engel P/N 01000-8273-V3

Woodward P/N 8445-1049 DL-CAN **V2** CAN FIBER OPTIC SYSTEM EKS Engel P/N 010007423

Please contact EKS directly if you need to modify or expand larger existing applications. There are options that we do not promote or support on our side.
