GAP3 Monitor License with GAP4

Dennis Carlton - 2026-10-31 - Software Tools

If you need the full functionality of GAP4 Monitor GAP, you will need to purchase a GAP4 Monitor License..

In order to use a GAP3 Monitor License with GAP4 you will need to install GAP3 and License with GAP3.

If you try to monitor with GAP4, it will check if there is a GAP4 or GAP3 license. If either one exists, monitoring will work (at the appropriate level of capability).

GAP4 honors ***previously*** *authorized* GAP3 licenses for monitoring and editing. The GAP3 licenses only authorize GAP3 functionality. For Monitor GAP, GAP3 license means

- No OLC support
- No monitoring of curve tables
