easYview-15-150 Multimode View with more than 4 controls

Justin Schneider - 2026-11-17 - easYview

Would you like to easily display 9 controls on one screen?

With our advanced technology, you can effortlessly showcase 3 easYgen-3500XT and 6 LS6XT controls on our user-friendly easYview 15" display in multi mode.

Upgrade your control system today and experience the convenience of simplified monitoring and management.

To provide you with a customized display experience, we offer the ability to choose up to 4 controls of your choice. These 4 controls will be displayed on VNC displays for your convenience. If you need to show additional controls, simply choose and mark them in the screen below (up to 4 possible).

With this flexibility, you can easily monitor and manage the controls that matter most to you.

Enjoy the benefits of tailored control displays!
